

DECISION SUPPORT TOOLS

HOW TO DECIDE? COPAY... DEDUCTIBLE... COINSURANCE... OUT-OF-POCKET MAX?!

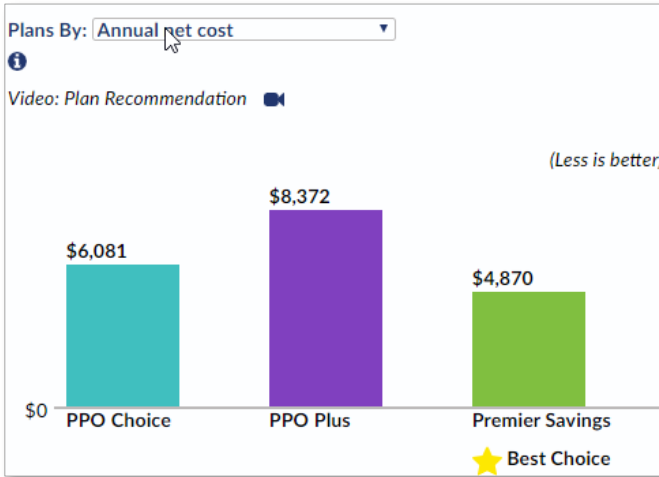

Help your employees choose the right medical plan!

We want employees to take full advantage of their benefits and choose the right plan for them and their dependents. The Decision Support Tools on our system simplify the complexities for them and allow them to make an informed decision

Using each employee's own data, Decision Assist™ software delivers step-by-step guidance for making complex health plan choices with confidence.

Workforce Junction has partnered Tango Health to offer an integrated decision support tool.

Workforce Junction partnered with Tango Decision Assist to guide employees through their important benefits decisions.

Powered by claims data, the tool recommends plans based on individual claims data or aggregated “people like me” claims.

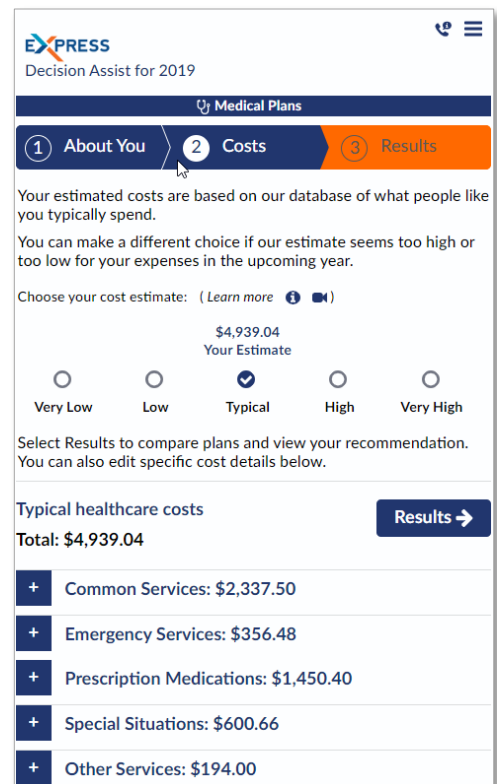

Easy-to-use, interactive software lets employees easily run multiple medical-spending scenarios to see the impact on plan choice.

Quick plan recommendation in ~ 3 minutes.

Detailed claims and aggregated peer data provide realistic spending baselines.

Robust analytics help you understand employee engagement and the success of your health plans.

It's a standalone tool and can seamlessly integrate with your current benefits platform.
