

DEPENDENT ELIGIBILITY VERIFICATION

ELIMINATE COVERAGE COSTS OF INELIGIBLE DEPENDENTS!

We realized how important verification is when we had an employee try to claim that his sister was also his wife, and the employee was terminated.

A dependent eligibility verification process would have warned the employee and he may not have been so reckless.

A formal process for dependent eligibility verification helps ensure employees enroll only the dependents they are legally allowed to enroll and saves employers money.

Enrollment

The enrollment is simple and integrated with enrollment in other benefits

Security

We keep data in a secure, HIPAA compliant manner

Administration

Uses built in administrative approval and communication systems to make the process simple and easy to use

The Benefits Desk™

Benefits specialists are available for clarification and outbound calls for documentation follow up.

Benefits Junction has built in capability to manage ongoing Dependent Eligibility Verification that makes it easy for employees and administrators.
